## **DETAILED ACTION**

### ***Priority***

Acknowledgment is made of applicant's claim for foreign priority.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

**Claims 5-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over D'Urso et al (U.S. Patent No. 7,258,731 B2).**

[**claims 5-16**] D'Urso discloses a surface composed of hydrophobic material that includes a nanostructure and the method for forming the surface during production of an article of manufacture as well as treating existing surfaces or products with a hydrophobic material. It would have been obvious to one of ordinary skill in the art at the time the invention was made to

apply the surface and methods of forming such surface to existing shopping carts in order to provide the advantage of self-cleaning, ice-repellent, and liquid-repellent shopping carts for store patrons.
